## SUMMARY

---

Software Engineer with a background in Machine Learning and Data Analysis. Currently learning to build AI solutions and deliver them end-to-end by combining AI development with backend experience in RESTful APIs (Node.js, Express) and automated deployment for scalable, production-ready systems.

## SKILLS

---

- **Programming:** Python, JavaScript, TypeScript, C++, SQL
- **Backend & Frameworks:** Node.js, Express, RESTful API Development
- **Databases:** PostgreSQL
- **Version Control & CI/CD:** Git, GitHub, CircleCI
- **AI:** Machine Learning, Data Analysis, Model Training, Data Visualization
- **Tools:** Linux, Jasmine, NumPy, Pandas

## PROJECTS

---

### Online Store Backend

- Backend for an online store using Node.js and PostgreSQL with RESTful APIs.
- Built and delivered a full project from development to deployment.
- Integrated backend, APIs, and deployment pipelines for full functionality.

### ImageResizing API

- API to resize images via URL requests.

### Full-Stack App with CircleCI

- Integrated front-end interfaces with back-end APIs to create a fully functional application.
- Automated development workflow using CircleCI.

## INTERNSHIPS

---

### **Backend Development Trainee**

(Jan 2023 – Mar 2023)

EGYPT FWD – Node.js Development Program – Udacity

- Built RESTful APIs using Node.js, Express, and PostgreSQL
- Engineered scalable back-end features with authentication, routing, and middleware

### **Forward Soft Skills Trainee**

(Mar 2023 – May 2023)

Forward Program – McKinsey & Company

- Completed a structured training in critical soft skills
- Participated in real-world scenarios and simulations guided by McKinsey mentors

## EDUCATION

---

**B.Sc. in Computer Engineering and AI** | Military Technical College , **Egypt**

(2020 – 2024)

- Grade: Very Good
